

Modular approval letter

To whom it may concern.

LumenRadio radio module with FCC ID: **XRSCRMXNOVA101**:

1. Does have its own RF shielding.
2. Does have buffered modulation inputs.
3. Does have its own power supply regulation
4. Does comply with the antenna requirements of Section 15.203 and 15.204(c)
5. Is tested in a stand-alone configuration according to applicable requirements
6. Is labeled with its own FCC ID.
If the label is not visible when installed inside another device this device must have a label visible on the outside containing the text
"Contains FCC ID: XRSCRMXNOVA101"
7. The operating requirements found in the document:
"CRMX-PD and RD specification "
8. The Product is an intentional radiator of Radio Frequency (RF) energy. In order to limit RF exposure to personnel in the immediate area, the Product should be located and installed such that a separation of at least 20 centimeters is maintained between the product's antenna and personnel in the vicinity of the device.

A handwritten signature in blue ink, consisting of a stylized 'N' followed by a long horizontal stroke.
